COVENANTS ENFORCEMENT PROCEDURES

Receipt of Complaints. Complaints may be received from property owners or the Association General Manager and his or her staff, orally at the Architectural Standards Office in person, or via telephone, fax, e-mail, or mail. Identification of the complainant is not mandatory and should not be included unless the complainant so requests.

Complaints will be transcribed to a TDA Covenants complaint form and date stamped with the date of receipt. Date stamped complaints shall be forwarded to the Compliance Inspector.

Record Keeping. Open Complaints and all associated documents, shall be maintained by the Compliance Inspector with references to such documentation in the appropriate Architectural Standards Office computer database. When complaints are closed, the file will be transferred to the Architectural Standards Office individual unit and lot file cabinets.

Communications with Complainant and Respondent. All written and verbal communications with the complainant and respondent shall be noted and included in the file. Within ten working days of the original complaint, a complaint status will be provided to the complainant, if contact information is available. If the initial inspection failed to confirm the complaint, the complainant shall be so notified.

In cases where the complaint cannot be photographed or verified by Staff, such as, but not limited to, ~~Noxious Activities~~(excessive noise, etc.) the complainant will be encouraged to personally attend the hearing. However, if the complainant chooses not to attend, a signed, written statement will be considered.

Initial Inspection. Within two working days of receipt, every complaint will receive an initial inspection. The Compliance Inspector, or other assigned employee, will perform the initial inspection. He/she will note the date, time and conditions observed. A photograph shall be taken of the conditions existing at the property. The complaint form and photo will be logged for enforcement. If a condition cannot be verified, it shall be so noted in the file and closed.

Initial Contact. Prior to the sending of any Notice of Non-Compliance, reasonable attempts will be made to contact the respondent via telephone to seek voluntary compliance. Appropriate database shall be checked for respondent's telephone contact numbers. In cases where there is no listing of telephone number for the respondent, reasonable attempts will be made to obtain the number by calling directory assistance in the respondent's city of residence. If contact is made during these initial contact calls, the respondent will be advised of the following:

1. Nature of the complaint made.
2. That the Association is seeking voluntary compliance.

3. That a Notice of Non-Compliance will be sent as a matter of policy.

A notation recording the telephone contact date, time and content will be made for inclusion in the file.

Notice of Non-Compliance. Within 5 days of receipt of a verified complaint, a notice of non-compliance will be sent to the respondent at the respondent's address of record and will state a re-inspection date of not less than fourteen days (four days mailing time, 10 days to correct the violation). Staff has the authority to extend a re-inspection date by one week without referring to the Committee.

The notice shall state the verbatim wording of the rule alleged to have been violated and the specific conditions in violation of the rule. The notice shall state that if the violation is corrected prior to the re-inspection date, the case will be closed. However, if the same violation occurs within 1 year of the re-inspection date, the respondent will be scheduled for a hearing before the Covenants Committee.

The notice of non-compliance shall contain a summary of the covenants enforcement procedures, listing actions that the Association may take to correct violations, including fines, interest and late fees, suspension of membership rights (voting, amenity access, ability to hold office, ability to purchase season passes), alternative corrective actions that may be taken at the expense of the owner.

Re-inspection. Within three days after the listed re-inspection date, the alleged violation shall be re-inspected. The Inspector shall note the date, time, conditions observed, and a photo shall be taken, where appropriate.

If the condition has not been corrected as of the re-inspection date, the matter shall be referred to a sufficiency review, as described below:

If the condition has been corrected prior to the re-inspection date, the file will be closed. If the same offense occurs at the property within 1 year of the re-inspection date, staff will request a sufficiency review.

Sufficiency Review. Sufficiency Reviews will be conducted within two days of a staff review request. At the Sufficiency Review, a member or alternate member of the Covenants Committee will review the complaint, inspection reports and photos. The Reviewer may visit the property location, record his or her observations, and deliver the information back to the Compliance Inspector. The Reviewer shall then direct staff to 1) issue a Notice of Hearing. 2) conduct further investigation. 3) dismiss the complaint due to compliance or lack of jurisdiction.

Dismissed complaints will be filed in the Architectural Standards Office individual unit and lot file cabinets. A status

acknowledgment will be provided to the respondent and to the complainant.

The Compliance Inspector, for scheduling, will retain complaints requiring further investigation. They shall be reviewed jointly by the Compliance Inspector and the Reviewer involved. Should the Inspector and Reviewer fail to agree as to how to proceed on such a complaint, the matter will be reviewed by a member of the Committee, not involved in the matter, whose opinion shall control.

Notice of Hearing. When the Sufficiency Reviewer and the Covenants Inspector deem it appropriate, a Notice of Hearing shall be prepared and sent both by first class, and via certified mail, return receipt requested, to the respondent at the respondent's address of record. The mailings shall include all appropriate information pertaining to the violation. Notices of Hearings shall be sent no less than 19 days prior to the scheduled hearing date (four days for mailing, 15 days prior notice required). The respondent shall be advised of the date and time that a hearing has been scheduled, and the possible actions that the Hearing Panel can take, including fines, abridgement of membership rights, corrective action at the expense of the owner.

Hearing. The content and results of hearings shall be recorded in the hearing minutes. A minimum of three Covenants Committee members, and/or alternates, are required to hold a hearing. A majority of the panel must agree on any action taken. No committee member or alternate member, who filed the complaint in the current matter, may be a member of the hearing panel. If a fine is imposed it may be determined from the date of re-inspection to the date of the hearing. The Hearing Panel will consider any unusual circumstances. Staff shall inspect the property on the day of the hearing, recording the current condition, and take a photo. If an inspection reveals that the respondent has complied, that fact will be presented at the hearing. If it is determined at the hearing that the violation did exist but has since been corrected, the Hearing Panel will determine the appropriate fine for the violation. Said fine may be suspended for a period of one year from the last hearing date unless the same violation is found, at a properly noticed hearing, to have been repeated within that period. In such cases, the fine previously suspended may be imposed for the prior violation, along with any penalties found appropriate with regard to the subsequent violation.

If a quorum is not met on the day of the hearing, the following procedures will be followed:

1. If the respondent did not attend the hearing, the hearing will be rescheduled.
2. If the respondent was present for the hearing, the case will be closed with no action taken.

If, as of the day prior to the hearing date, the violation has not been corrected, the Hearing Panel shall schedule a re-inspection date. If at the re-inspection, the violation has not been corrected a new hearing date will be set where the

Hearing Panel may determine alternative action be taken to resolve the issue.

Staff will notify the respondent and the complainant of the results of the hearing.

Notice of Hearing Decision. Within ten working days of the hearing, a Notice of Hearing Decision shall be prepared and sent both by first class mail, and via certified mail, return receipt requested, to the respondent at the respondent's address of record. If the decision is adverse to the respondent, notice of the respondent's appeal rights shall be included. The notice shall state any fines levied against the respondent, and if appropriate, if those fines were suspended. The notice shall contain a summary of the covenants enforcement procedures, listing actions that the Association may take to correct violations, including fines, interest and late fees, suspension of membership rights (voting, amenity access, ability to hold office, ability to purchase season passes), alternative corrective actions that may be taken at the expense of the owner. The notice will include information on the property owner's appeal rights and that the owner may appeal all Hearing Panel decisions to the Board of Directors Appeal Board.

Appeals Authority. The Board of Directors is the appeals authority for all decisions of the Covenants Committee. All such decisions may be appealed within 15 days following receipt of the Covenants Committee's decision by the offending Owner. A request for an appeal hearing by the Board of Directors must be in writing on a form provided to the offending Owner. This form will be provided to the Owner with the notice of the Covenants Committee's decision. C&Rs Art. XIII, Sec. 7(c).

Owners are prohibited from permanently attaching anything to trees without first obtaining written permission from the Forestry Department. After making on-site inspections, the TDA Forester may determine that individual trees require removal, and/or that brush thinning may be required. Notice to remove such trees and/or brush, indicating a compliance date, will be sent to owners. Failure to remove such trees and/or brush prior to the stated compliance date will constitute a violation of the Association Rules. Fines for such violations will accrue until the trees are removed.
