- Other Meetings Available for Member Input
 - Board of Directors meeting January 22
 - Board of Directors meeting February 27
 - Board of Directors meeting March 18
 - Board of Directors meeting July 23
 - Board of Directors meeting August (date TBD)

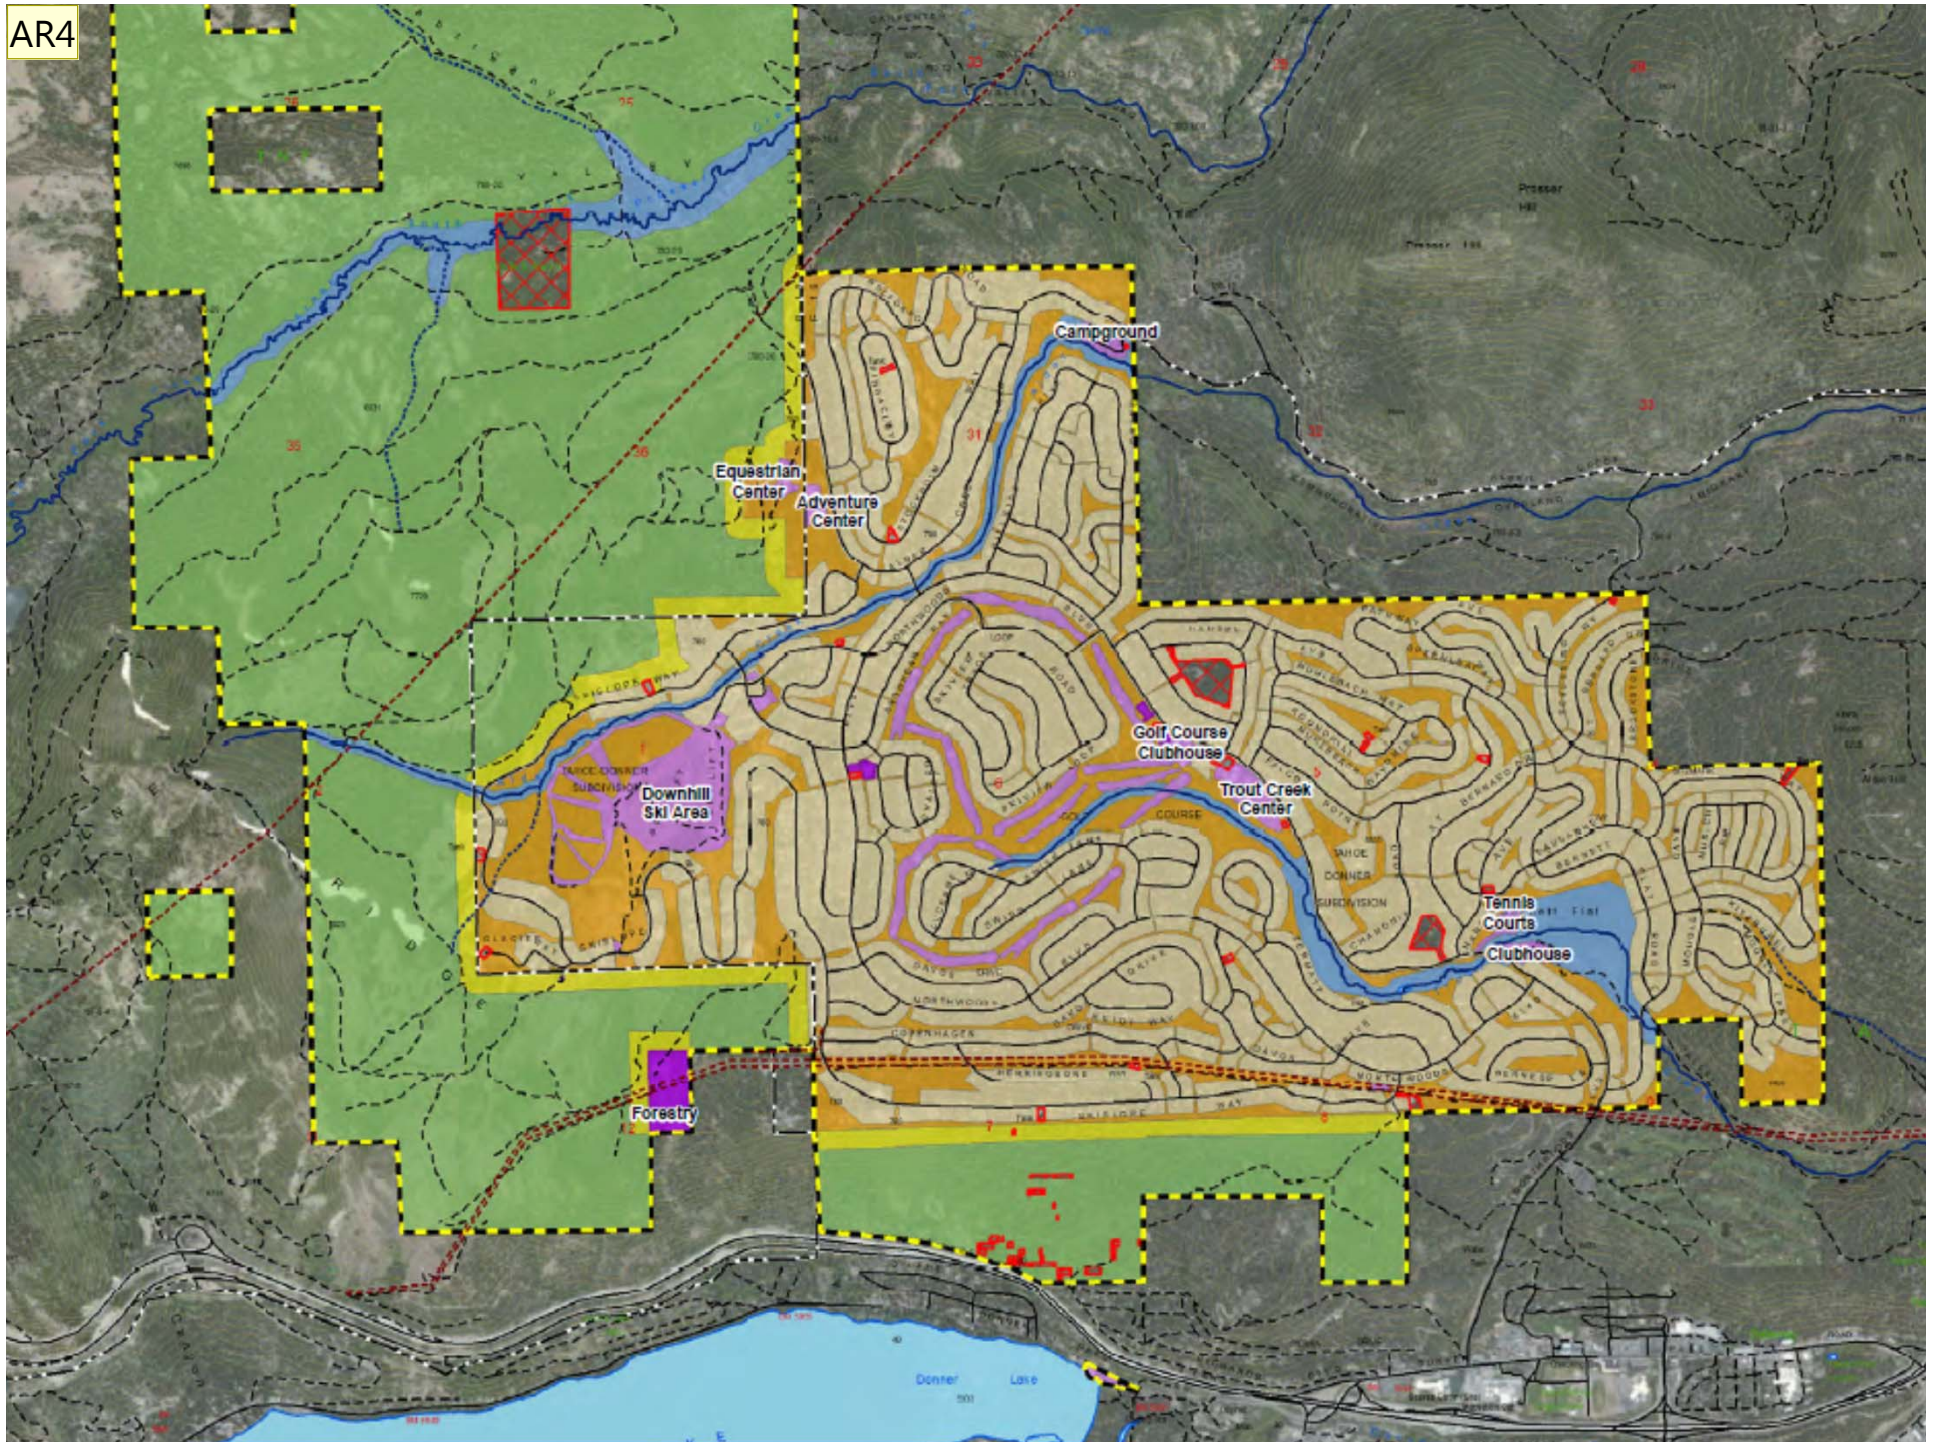

Draft Goal I and Objectives

- **Goal I. Provide policies and plan to manage the Association lands, where appropriate, for sustainability, conservation, restoration, mitigation, recreation, and member-serving amenities.**
 - Objective 1. Identify and prioritize management activities and land uses by zone.
 - Objective 2. Guide future development activities, resource conservation, and management within the following zones: Residential, Residential-Wildlands Interface, Amenities, Greenbelt, Open Area, Stream Corridor, and Ancillary Facilities.
 - Objective 3. Ensure that allowable land uses remain compatible with the long-term conservation and management of sensitive biological, water quality, cultural resources and hazardous areas.
 - Objective 4. Design and monitor drainage facilities, such that direct and indirect impacts to biological and water quality resources are minimized.
 - Objective 5. Compatibility not only with CC&Rs but also other Tahoe Donner guiding documents, i.e., a partnership for management and stewardship.
 - Objective 6. Foundation for educating the membership on the role of the board, management and committees specific to this topic.
 - Objective 7. Working document to be utilized during planning processes.
 - Objective 8. Represent membership input throughout the process.

Draft Goal 2 and Objectives

- **Goal 2. Conserve and manage natural and cultural resources within Tahoe Donner for the use and benefit of Tahoe Donner members and the greater Truckee community and to protect and enhance the natural environment in and around Tahoe Donner.**
 - Objective 1. Manage biological, water quality and cultural resources and hazardous areas, in the context of existing, surrounding and future land uses within the management zones.
 - Objective 2. Design and monitor transition areas between approved development and recreation areas, such that edge effects are minimized.
 - Objective 3. Maintain or increase riparian functions and values of South Fork Prosser Creek, Alder Creek, Trout Creek and associated tributaries.
 - Objective 4. Maintain or enhance wildlife and habitat corridors.
 - Objective 5. Conserve endangered species' habitats within open space.
 - Objective 6. Provide monitoring and maintenance, adaptive management techniques, project prioritization protocols and recommend funding sources for mitigation components.
