

TAHOE DONNERSM

GLOBAL POSITIONING SYSTEM (GPS)

GEOCACHING

FOR YOUR GROUP

LOCATION

We have more than 40 miles of trails and fire access service roads, covering approximately 4,000 acres of common land owned and maintained by Tahoe Donner Association for your group to explore. The trail system offers a variety of terrain, from flat meadow trails, to scenic vista points with spectacular views; locations can be customized depending on your needs.

NUMBER OF TEAMS

We suggest smaller numbers of people per team, as everyone on each team will be utilizing one GPS unit to achieve their goal.

DESCRIPTION

Using your GPS unit on your own or with your team, adventure around your chosen location on Tahoe Donner property to locate the waypoints of the hidden treasures. Our team can equip you and your group with treasures or you may provide your own. Our pre-plotted waypoints on the GPS units will help you find your way to the stations (depending on the needs of your group, the number of stations can be customized). Our staff can assist with organization and facilitation of this activity.

VARIATIONS

1. To increase the teamwork/building aspect of the activity, each team may be required to perform a team challenge at each point before moving on to the next.
2. Do you enjoy friendly competition? A member of the Recreation Staff can time your effort, and top times will be recorded for the chance to win prizes.

HOURS

This team building activity can last approximately 1 - 2 hours and can be customized to fit your needs.

COST

Price will vary depending on size of group and needs.

PRIZE AND TREASURE OPTIONS

Tahoe Donner gift certificates, stickers, and swag items are available for purchase.
