Hi Megan,

This is one of the items for the consent calendar that I asked for a place holder:

The committee recommends that TDGF give an additional total of \$3000 to scholarship grantees (3 of them) that we have supported in the past, who still need additional support next year as long as they maintain full time status, have 2.5 grade average or equivalent and are still in their program. The motion was voted upon and approved. The Tahoe Truckee Community Foundation will qualify the applicants. Future grants will depend on our fundraising ability.

Thanks,
Dick

Linda's bio:

Hello,

Please consider me for membership in the Tahoe Donner Giving Fund committee. The Tahoe Donner Giving Fund embodies a unique opportunity to leverage my professional and technical skills and to indulge my volunteering spirit. The Fund has made a positive and productive impact on the community and it is poised to do even more. I hope to be part of that effort.

After decades of working and raising my family in the San Francisco Bay Area, I am living the dream – making my home in Tahoe Donner. My family fell in love with this community while on ski vacation with friends who were smart enough to rent a home here. By the next summer, we were homeowners and loving all the amenities the community has to offer. Over the years, I think we have used every single amenity at least once! Upon retirement, I now have the chance to make this my full-time home.

As I have achieved a certain age, it has become more imperative to give back to those who have given me so much and to provide opportunities for those who come behind us. I have worked in the high-tech arena for years, most recently as a software development team manager. All the while, I have been an active volunteer in my community. My activities have ranged from coordinating World Wide Volunteer Week activities at my work, serving the hungry students at local schools, helping to administer the high school attendance office, creating quilts for the Linus Project, volunteered as precinct walker for school bond measures, coordinated the annual back-to-high school registration process for 1800 students, organize Senior Grad Night for my youngest daughter's high school class, etc.. It is in my nature to serve and I find it very fulfilling.
