increases to the Development Fund assessment. Committee and management discussed the desirability of long-term planning, including projects beyond a five-year horizon.

Downhill ski lodge.

The committee and management discussed the status of the project.

Jon Mitchell summarized the work plan for the lodge project:

- Pros Consulting (<http://prosconsulting.com>) has been engaged to support management in project planning.
- The plan will include outreach to members and non-members, including approximately 10 focus group conversations and broad surveys. The focus group conversations will help Pros develop survey questions. GPC will constitute a focus group.
- The Pros contract includes engagement with the project design team and architect.
- Pros will also develop a business plan and recommendations regarding best operational practices for the ski hill.

Committee members, liaison director Mahoney and visitors engaged in a robust discussion of confidentiality and transparency in relation to GPC discussions and documents shared by management with the committee. Specific concerns were raised with respect to the sharing of information outside of the committee and public commentary on platforms such as NextDoor. The discussion recognized that committee meetings are open to all members and that trust is developed when topics can be discussed openly. Conversely, open discussion may be enhanced in a confidential setting. Further discussion of these important subjects will be planned.

### 6. Community Planning

Laura Lindgren delivered an engaging presentation of concepts for safe self-powered circulation in Tahoe Donner. This conceptual approach to potentially affordable bicycle lane improvements to Northwoods Blvd and pedestrian crossings was well received. The presentation is available here - <https://youtu.be/Zkk0B5qNat8>.

#### Adjournment:
