

Eric Klein

Candidate for Tahoe Donner Board of Directors

My wife and I have been Tahoe Donner homeowners since 2013.

Our kids have learned to ski and mountain bike at Tahoe Donner and we hope to see their children enjoy this community — which is why I'm running for the Board of Directors.

Experience

I was founder and CEO of a logistics technology company that was acquired in 2019. I now work as a consultant. Over the course of my career, I led multinational teams to build large-scale infrastructure projects around the world.

As a resident of the City of Burlingame, I served on the Downtown Burlingame Improvement District Board, and as a Commissioner for a Public Oversight Committee.

Priorities

Downhill Ski Lodge

The management and oversight for the largest capital project in Tahoe Donner history has created significant division in our community. While the Downhill Ski Lodge is in dire need of replacement, it is not the only critical need for our community, and any plan for this project must take into account other priorities for Tahoe Donner.

Wildfire Mitigation

It's not a matter of whether the threat of forest fires will affect our community, but a matter of when. Our number one priority is to ensure the safety of our community, and that firmly rests on how we are managing our forest and defensible spaces. This is not just for the safety of our property and people, but also to ensure that our most precious amenity - our trails and open space - is preserved.

Financial Accountability

We need transparency and accuracy in all financial reporting so that we have a clear understanding of the costs and revenue from amenities. In addition, we must consider funding for replacement/reserve funds that is not solely based on member assessments

Amenity Relief

Tahoe Donner members are the first priority when it comes to member access of our amenities. I believe we should price access in such a way that drives revenue from public access, but does not diminish member access where appropriate.
