- **Aquatics Programs** – First session of programming began on June 19
- **Northwoods Pool** – Opening for the season on June 24
- **Equestrian Center** – The Tahoe Donner herd has arrived; programs began on June 19 and boarding will begin on June 25

GOLF OPERATIONS

CURRENT STATUS

Driving Range

- Opened on June 9

Front 9

- Opening June 23
- 9AM shotgun start with twice-through play for 18 holes
- Tee times beginning at 2PM

18 Holes

- June 30 target for opening day
- Normal tee time reservations once 18 holes are open
- May have some modifications to play on the back 9

Anticipate core season rates to begin on July 8

CHALLENGES

What the team has overcome:

- Second-largest winter on record
- Six-week delay to be able to begin course preparation
- Ongoing winter weather well into May
- Mid-May transition to thunderstorm cycle – 30 days
- Access limitations throughout the spring months due to snow, water, mud, etc.
- Process compression – greens, tees and fairways
- Non-normal resource allocation – damage repair
- Challenging labor environment

EXPECTATIONS

What the membership can expect:

- Early season conditions on the entire course – especially tee boxes and approaches
- Areas marked as ground under repair
- Cart path only until significant drying occurs
- Continued focus of effort to get the course into great shape as soon as possible – golf maintenance staff will be in the field, so please be courteous and have patience

Back 9 water sand trap/water hazard – June 14, 2023

TAHOE DONNER

THANK YOU
